

Provincial law outlined in *The Electricians' Licence Act*, subsection 4(2), requires that all electrical work in the Province of Manitoba be performed by a person who holds either a valid electrician's licence or an electrical wiring permit.

The Manitoba Electrical Code ("the Code"), Rule 2-004(3), provides an exception for an owner of residential premises to apply for an electrical permit and perform electrical work. Approval is subject to certain conditions set out in the Code.

The homeowner applicant hereby accepts and declares ALL of the following statements to be true:

- a) I will personally perform all work described in the accompanying electrical permit application.
- b) I am the owner of the residential premises and occupy/will occupy the premises as a dwelling or seasonal residence.
- c) The residential premise stands alone or is separated from any other occupancy or other part of the building by a fire wall or fire separation.
- d) The electrical work to be performed is not in a hazardous location.
- e) The electrical work to be performed does not include generators or renewable energy systems.
- f) The electrical work to be performed does not include any consumer's service. The consumer's service is the point where Manitoba Hydro connects to the premises to supply power; it includes the mast, meter socket, and service box (main breaker or fuses).
- g) The electrical work to be performed does not include a swimming pool or hot tub.
- h) The electrical rating of the installation on the premises does not exceed 150 volts to ground, single phase and 200 amperes.
- i) The electrical work to be performed is not inside a mobile home or for the connection of a mobile home.
- j) The electrical work to be performed is not part of a residential premise in Riding Mountain National Park.

No electrical work with respect to installation, alteration, repair or extension of any electrical equipment shall commence until an electrical permit is issued.

I hereby declare that I have read and agree to the Terms and Conditions.

The details of work are correct to the best of my knowledge. I agree to pay on demand any extra charges for inspection of equipment not shown herein, in accordance with Manitoba Hydro electrical inspection fees. I agree to notify Manitoba Hydro as soon as the work authorized by this permit has been completed and/or an inspection is required. I further agree upon notification by the inspector to remedy immediately any defects in the wiring of equipment.
