

Schedule of Electrical Permit Fees effective January 1, 2022

Issued By:

Manitoba Hydro Electrical Inspections

IMPORTANT: All prices in this document are subject to GST.

Table of Contents:

Residential Self-wire Permit Fees

1. Single Dwelling
2. Alterations, additions, garages, renovations, and outbuildings under 30 square metres, includes subpanel and devices.
3. Electric heating, air conditioning, heat pumps, boilers, hot water tanks, pumps, motors, receptacle for Level 1 electric vehicle charger, and other miscellaneous residential equipment.
4. Safety inspection of a building located within a National Park.
5. Permit renewal fee for an additional year of time.
6. Special inspection prior to reconnection of existing residential services that have been disconnected for 6 months or longer.
7. Residential self-wire reinspection or extra inspection fee.

Residential Permit Fees

1. Single dwelling
2. Ready-To-Move (RTM) and Mobile Homes
3. Additions and alterations to service, meter socket, distribution panels, temporary services or reconnection of existing services.
4. Electrical equipment such as devices, fixtures, motors, central heating, cooling, air conditioning units and heat pumps, pools, hot tubs, spas, receptacle for Level 1 electric vehicle charger, and miscellaneous residential equipment.
5. Generators Residential
6. Electric Vehicle Supply Equipment Residential
7. Renewable energy systems
8. Energy storage systems
9. Residential garage, addition, sunroom, recreation room or similar outbuildings less than 30 square meters.
10. Trench or overhead inspection
11. Residential building inspections in National Parks
12. Permit renewal fee for an additional year of time.
13. Special inspection prior to reconnection of existing residential services that have been disconnected for 6 months or longer.
14. Residential contractor reinspection or extra inspection fee.

Commercial Permit Fees

1. Minimum non-refundable permit fee
2. Apartment buildings, hotels, motels, personal care homes, senior citizen residences, multi-unit residential, condominiums and dormitories.
3. Schools
4. Relocatable structures
5. Trench or overhead inspections
6. Temporary services
7. Commercial buildings
8. Multi-unit commercial buildings
9. Commercial barns
10. Health care facilities
11. Electrical equipment
12. Electric Vehicle Supply Equipment
13. Renewable energy systems
14. Energy storage systems
15. High voltage installations
16. New recreational vehicle and mobile home parks
17. Permit renewal fee for an additional year of time.
18. Special inspections prior to the reconnection of commercial services or installations that have been disconnected for 6 months or longer.
19. Commercial contractor reinspection and extra inspections
20. Annual permits
21. Special acceptance of electrical equipment
22. Plans examination and Manitoba Electrical Code deviation request

Administrative Fees

1. Hourly inspection rates
2. Travelling expenses
3. Penalty fees

Residential Self-wire Permit Fees

Description	Fee
1. New single dwelling or cottage, 200 amps or less, excludes service. <i>Important Notes: No additional equipment needs to be selected, includes attached garage or outbuilding.</i>	\$440
2. Alterations, additions, garages, renovations, and outbuildings under 30 square metres, includes subpanel and devices.	\$220
3. Electric equipment only - electric heating, air conditioning, heat pumps, boilers, hot water tanks, pumps, fixtures, devices, receptacle for Level 1 electric vehicle charger and motors. <i>Important Notes: Applies when this is the only item being installed and not part of a new dwelling or alteration.</i>	\$220
4. Safety inspection of a building located within a National Park.	\$220
5. Permit renewal fee for an additional year of time.	\$110
6. Special inspection prior to reconnection of existing residential services that have been disconnected for 6 months or longer.	\$220
7. Residential self-wire reinspection or extra inspection fee. Important Note: A reinspection fee may apply for the reinspection of corrected code violations.	\$165

Residential Permit Fees

IMPORTANT: New single dwellings over 200 amps require a separate Commercial Permit for the electric service. The permit fees for generators, electric vehicle supply equipment, renewable energy supply equipment and energy storage systems are listed below, however this equipment requires a Commercial Permit.

Description	Fee
1. Single dwellings:	
New single dwellings 200 amps or less with service included. <i>Important notes: A commercial permit is required for any generators, renewable energy systems or self-contained energy storage systems.</i>	\$400
New single dwellings over 200 amps. <i>Important Notes: A commercial permit is required for the service, generators, renewable energy systems or self-contained energy storage systems.</i>	\$400
2. Ready-To-Move (RTM) and Mobile Homes <i>Important Notes: Separate permits are required for: wiring RTM at the building site, wiring RTM at the permanent site, and connection of a mobile home.</i>	\$220
3. Additions and alterations to service, meter socket, distribution panels, temporary services or reconnection of existing services.	\$165
4. Electrical equipment such as devices, fixtures, motors, central heating, cooling, air conditioning units, heat pumps, pools, hot tubs, spas, and miscellaneous residential equipment.	\$165
5. Generators Residential	\$165
6. Electric Vehicle Supply Equipment Residential	
Level 2 Residential - 208/240 volt electric vehicle supply equipment 40 Amps or less	\$220 per charger
Level 2 Residential - 208/240 volt electric vehicle supply equipment above 40 Amps	\$220 per charger
7. Renewable energy including solar photovoltaic panels, wind turbines and hydropower systems.	
Renewable energy system 2kW or less	\$100 per 500 W increment
Renewable energy system over 2 kW – first 2 kW	\$400
Renewable energy system over 2 kW – each additional kW	\$40 per kW
8. Energy Storage Systems	
Self-contained residential energy storage system 10 kW or less	\$220
Self-contained residential energy storage system greater than 10 kW	\$440
9. Residential garage, addition, sunroom, recreation room or similar outbuildings less than 30 square metres.	\$165
10. Trench or overhead conductors	\$165

11. Safety inspection of a building located within a National Park.	\$220
12. Permit renewal fee for an additional year of time.	\$110
13. Special inspection prior to reconnection of existing residential services that have been disconnected for 6 months or longer	\$220
14. Residential contractor reinspection or extra inspection fee.	\$165

Commercial Permit Fees

Description	Fee
1. Minimum non-refundable permit fee	\$165
2. Apartment buildings, hotels, motels, personal care homes, senior citizen residences, multi-unit residential, condominiums and dormitories.	
Building permit fee based on the number of units within the building.	\$220 per unit
For areas such as lounges, recreation areas, conference rooms, kitchens, dining rooms, restaurants and other commercial areas, based on the outside dimensions. Generators inside or outside the building, lamp standards, parking outlets, signs and equipment outside the building are based on a per item fee as listed below in section 11.	\$1.65 per square metre
3. Schools – Based on the outside dimensions. Generators inside or outside the building, lamp standards, parking outlets, signs and equipment outside the building are based on a per item fee as listed below in section 11. <i>Important Notes: Fee does not include re-locatable structures.</i>	\$1.65 per square metre
4. Relocatable structures	
Wiring at the building site	\$220
Wiring at the permanent site	\$220
Connection at site	\$220
5. Trench or overhead inspection	\$165
6. Temporary services	
Up to 200 amps	\$165
Over 200 amps	\$220
7. Commercial Buildings - Includes offices, stores, small manufacturing such as woodworking shops, auto body repair shops, welding shops, service stations and repair garages.	\$2.20 per square metre
8. Multi-unit commercial buildings	
Multi-unit commercial building based on outside dimensions. Generators located inside or outside the building, lamp standards, parking outlets, signs and equipment outside the building are based on a per item fee as listed below in section 11.	\$1.65 per square metre
Multi-unit commercial per electric meter fee.	\$110
9. Commercial barns fee based on outside dimensions. <i>Important Note: Does not include standby generators which is a per item fee listed below in section 11.</i>	\$1.65 per square metre
10. Health care facilities based on outside dimensions. Generators located inside or outside the building, lamp standards, parking outlets, signs and equipment outside the building are based on a per item fee as listed below in section 11.	\$4.00 per square metre
11. Electrical equipment	
Electric service	\$165

Distribution equipment (indicate the total of the following types of equipment: panelboards, switchboard, splitter, control panel, alarm panel, enclosed switch, or similar apparatus)	\$110
Wiring devices and fixtures	\$2.25 per unit
Signs – first sign	\$165 per unit
Signs – each additional sign	\$40 per unit
Lamp standards	\$20 per unit
Motors – fractional horsepower	\$6.50 per unit
Motors – under 25 horsepower	\$28.50 per unit
Motors – 25 horsepower and over	\$61.50 per unit
Fuel dispensing devices	\$55 per unit
Fuel burning space heating equipment – central units	\$75 per unit
Fuel burning space heating equipment – unit heaters	\$16 per unit
Transformers	\$75 per unit
Generators Commercial	\$1.50 per kVA
Refrigeration and air conditioning units	\$61.50 per unit
Electric heating, including space heating units, hot water tanks and boilers – 5kW or less	\$15 per unit
Electric heating, including space heating units, hot water tanks and boilers – over 5kW	\$2.50 per kW
Cooking appliances	\$2.50 per kW
Voice data and video and alarm installations – main control panel with unlimited devices	\$165
Voice data and video and alarm installations –additional racks including all components installed in each rack such as hubs, patch panels, modems, router , etc.	\$55 per additional rack
Existing mobile home and recreational vehicle parks – first 10 power pedestals	\$31 per pedestal
Existing mobile home and recreational vehicle parks – any power pedestal over the first 10	\$15 per pedestal
12. Electric Vehicle Supply Equipment	
Level 2 Commercial - 208/240 volt electric vehicle supply equipment (does not include any additional distribution equipment or transformers).	\$220 per charger
Level 3 Commercial – DC fast charger electric vehicle supply equipment (does not include any additional distribution equipment or transformers).	\$440 per charger
13. Renewable energy including solar photovoltaic panels, wind turbines and hydropower systems	
Renewable energy system 2kW or less	\$100 per 500 W increment

Renewable energy system over 2 kW – first 2 kW	\$400
Renewable energy system over 2 kW – each additional kW	\$40 per kW
14. Energy Storage Systems	
Self-contained commercial energy storage system 10 kW or less	\$440
Self-contained commercial energy storage system greater than 10 kW	\$440
15. High voltage installations	
Service including metering and grounding	\$1500 per service
Distribution unit, cell of protective, or switching equipment	\$200 per unit
Motors and transformers – up to 500 horsepower/kVA	\$250 per unit
Motors and transformers – 500 horsepower/kVA and over but less than 1 000 horsepower/kVA	\$350 per unit
Motors and transformers – 1 000 horsepower/kVA and over	\$500 per unit
16. New recreational vehicles and mobile home parks <i>Important Note: Separate permit is required for buildings such as recreational facilities, restaurants and laundromats.</i>	\$25 per power pedestal
17. Permit renewal fee for an additional year of time.	\$110
18. Special inspection prior to reconnection of existing commercial services that have been disconnected for 6 months or longer	\$165 per hour
19. Commercial contractor reinspection and extra inspections.	\$165 Minimum
20. Annual permit - The fee for an annual permit shall be at the hourly rate and based on the total hours of inspection performed over a 12-month period. The minimum fee is charged at time of permit application.	\$440 Minimum Fee
21. Special acceptance of electrical equipment	
Special acceptance inspection shall include up to 3 hours of time. Each additional hour shall be charged at the hourly inspection rate. The minimum fee is charged at time of permit application.	\$330 minimum fee
Acceptance label	\$25 per label
22. Plans examination and Manitoba Electrical Code deviation request	\$165 per hour

Administrative Fees

Description	Fee
1. Hourly inspection rates including safety inspections <i>Important Note: For the inspection of an installation where the previous fees are not applicable.</i>	
Inspection during normal office hours	\$110 per hour or part thereof
Inspection outside of normal office hours	\$220 per hour or part thereof
2. Travelling expenses - When a special trip is required a minimum 3 hours will be charged at the hourly inspection rate, when the installation is not accessible by road additional travel expenses may be charged in addition to the regular inspection fees.	
3. Penalties	
Proceeding with electrical work without a previously issued permit.	\$500 + applicable permit fee
Reinstatement of permit privileges	\$250

Available in accessible formats upon request.
