

Informative Note: 26-724

Kitchen Counter Receptacles

This Informative Note is to provide code users with guidance on determining the location of the receptacles required along the wall at counter work surfaces.

Every effort has been made to ensure the accuracy of the information being provided. However, in the event of a discrepancy between this informative note and the governing Manitoba Electrical Code, The Manitoba Electrical Code shall take precedence.

Remember, the Manitoba Electrical Code is constantly being updated. Be sure to familiarize yourself with the latest code requirements before you begin your installation.

Requirements:

- All kitchen counter receptacles required by rule 26-724 d) iii must comply with the current edition of the Manitoba Electrical Code.
- Receptacles required by this rule are to be installed within the wall above the counter work surfaces.
- The receptacles required are not to be installed on the underside of the cupboards or cabinets.
- Receptacles within the counter work surface are not permitted.
