

# We want to hear from you.

## Manitoba-Minnesota Transmission Project

Manitoba Hydro is proposing to construct a 500-kilovolt transmission line from Winnipeg to Minnesota to sell surplus power and enhance the reliability of supply in Manitoba in times of drought or emergency.

With the environmental assessment and public feedback received to date, **Manitoba Hydro is presenting the preferred route for review.**

**Open houses will be held** at the locations listed to the right. All are welcome and refreshments will be served.
