

# Manitoba Hydro Environmental Management Policy

Manitoba Hydro recognizes that our operations both affect, and are affected by our environment. The energy services we offer Manitobans rely on natural resources that are of critical importance to us all. This is why environmental leadership is identified as a key principle of our business.

We will consider the environmental impacts of our activities, products and services. To deliver on this commitment effectively, we employ an environmental management system (EMS) that aligns with the ISO 14001 Standard.

## **Specifically, Manitoba Hydro strives to protect the environment by:**

- Ensuring that work performed by our employees and contractors meets environmental regulatory, contractual and voluntary commitments.
- Recognizing the needs and views of our interested parties and ensuring that relevant information is communicated.
- Continuously assessing our environmental risks to ensure we are managing them effectively.
- Reviewing our environmental objectives regularly, seeking opportunities to improve our environmental performance.
- Considering the life cycle impacts of our products and services.
- Ensuring that our employees and contractors receive relevant environmental training.
- Fostering an environment of continual improvement.

**President and Chief Executive Officer**
